1980 Golden Warrior

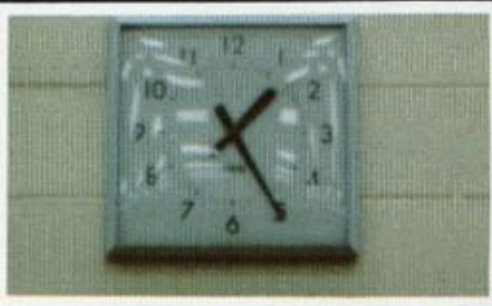

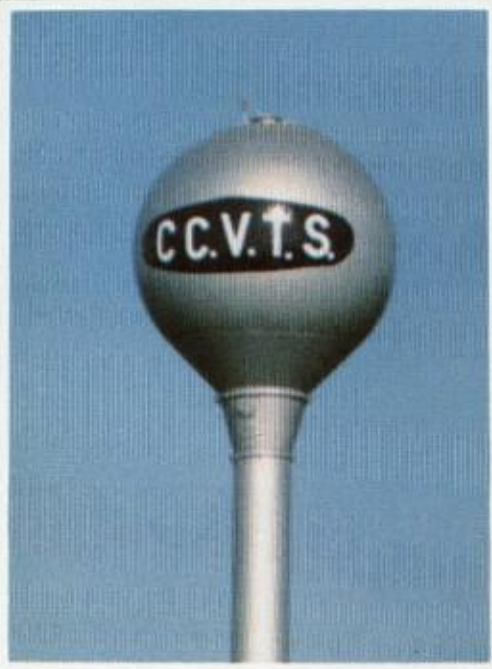

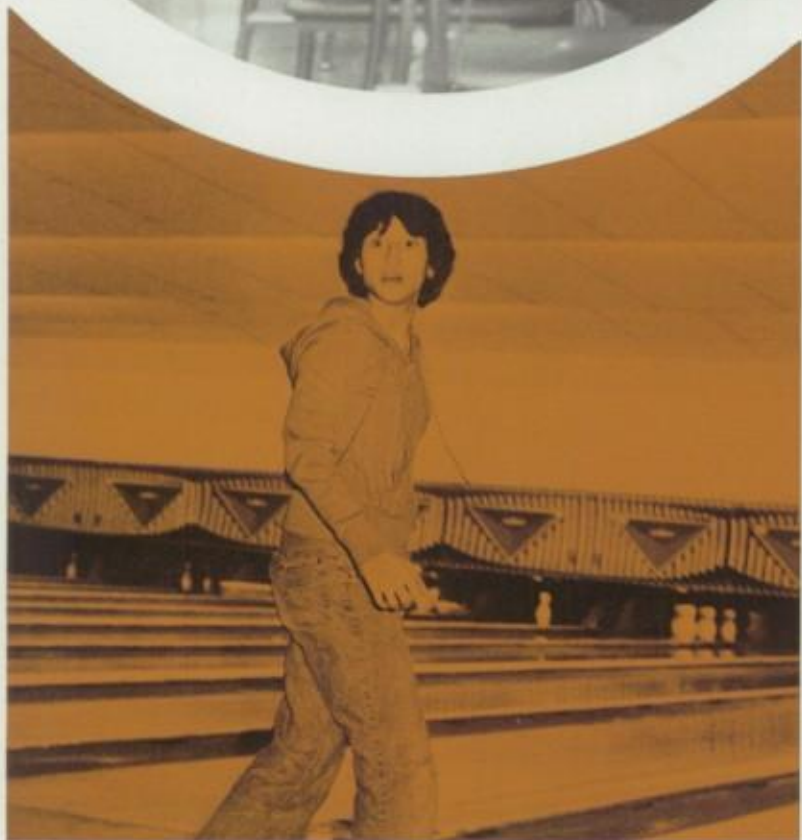

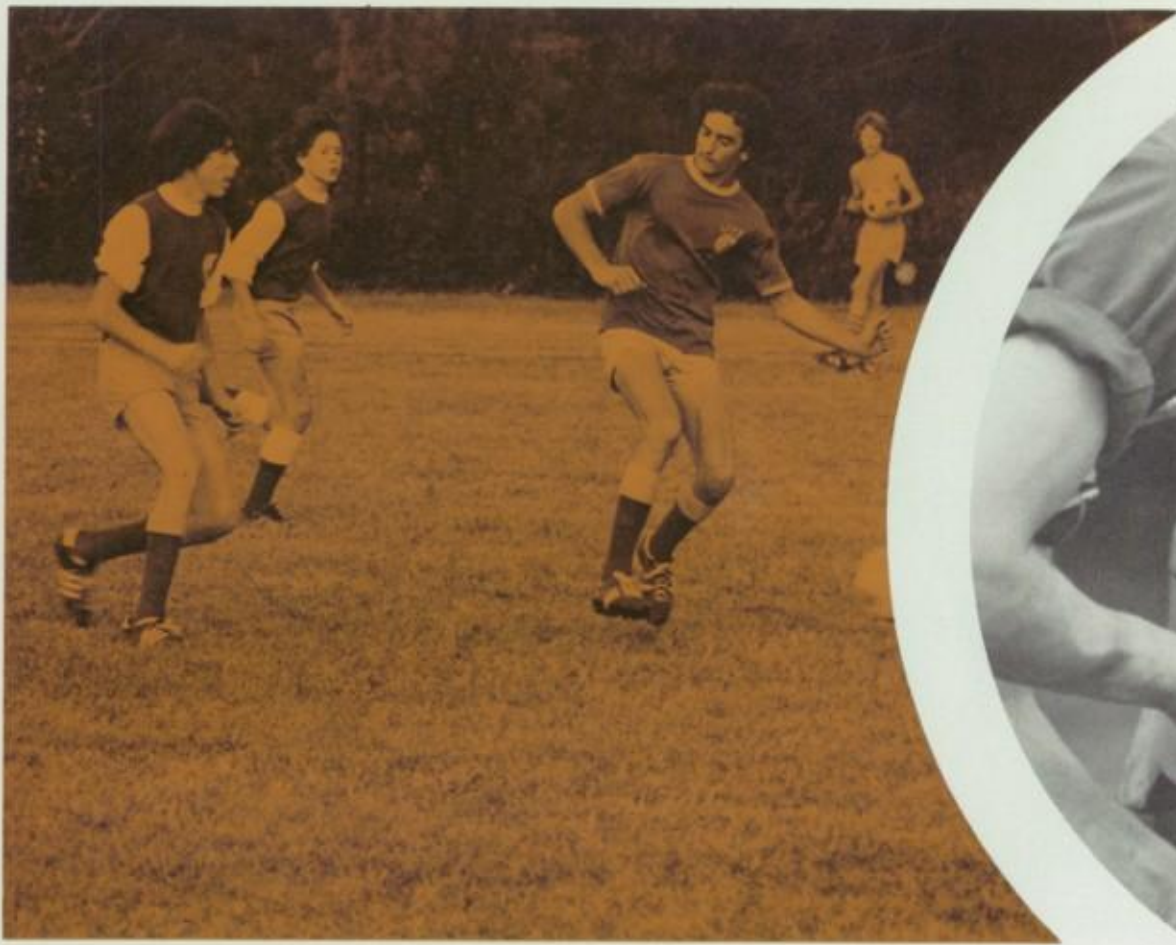

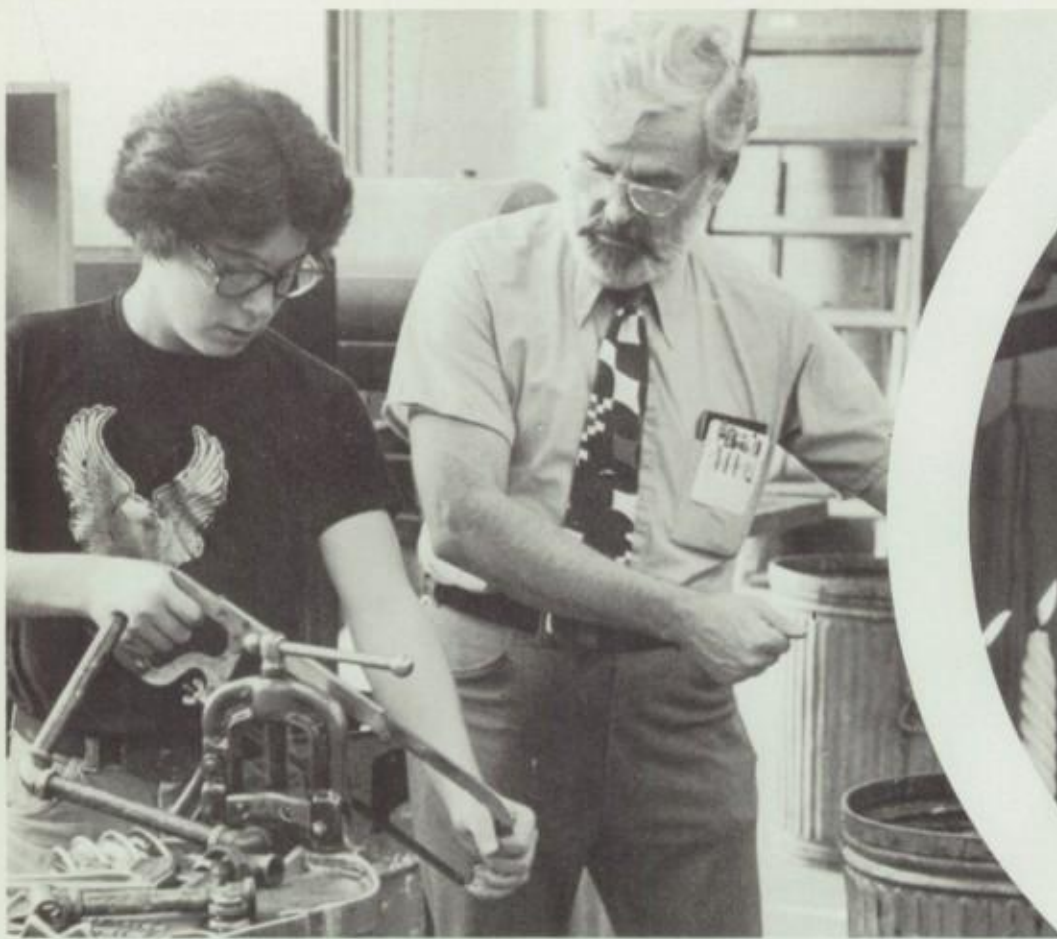

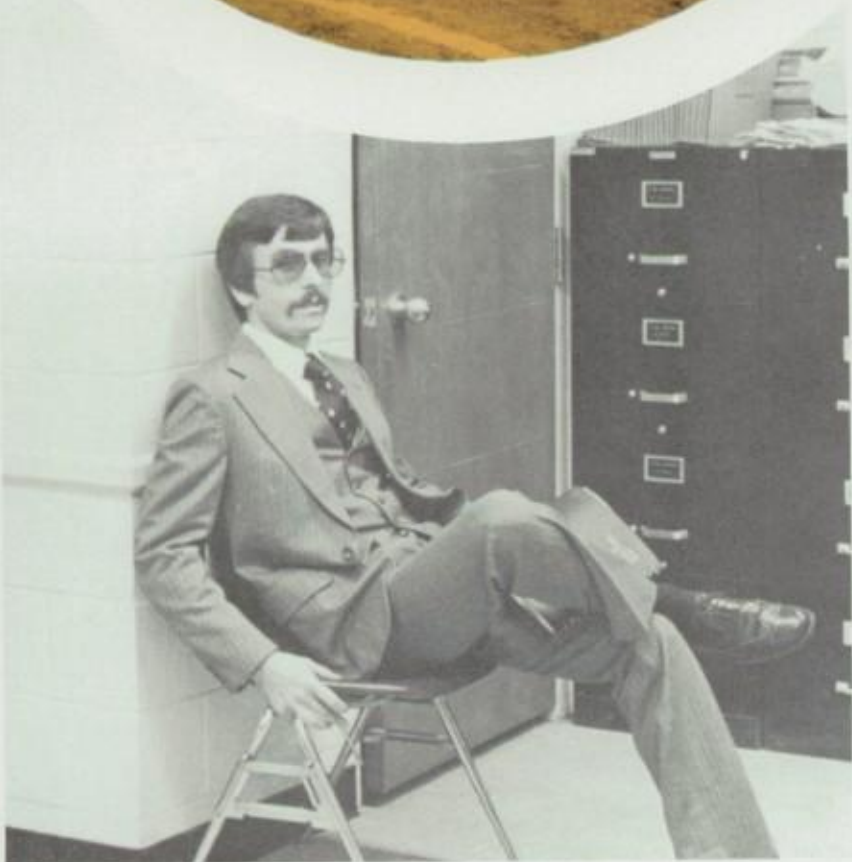

A Day In The Life

I'll catch the sun
and never give it back again.
I'll catch the sun
and keep it for my own.
And in a world where no one understands
I'll take my outstretched hand
and offer it to anyone
who comes along and tells me
he's in need of love.
In need of hope or maybe just a friend.
Perhaps in time I'll even share my sun
with that new anyone
to whom I gave my hand.

-Rod McKuen

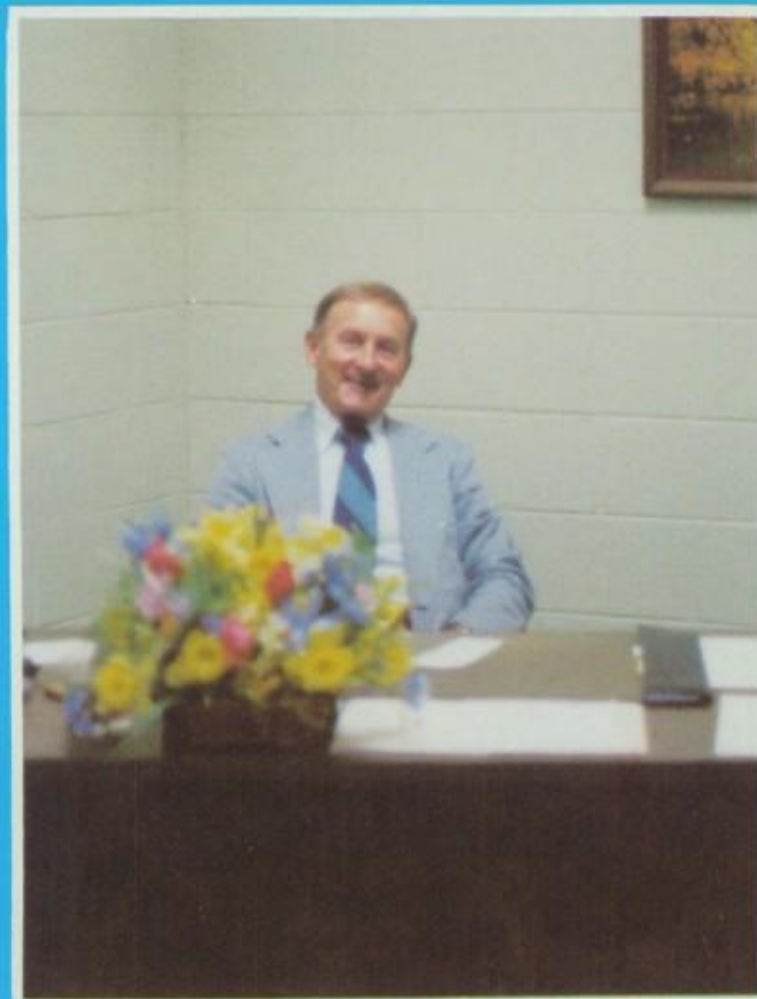

A Dedication To Years Of Dedication

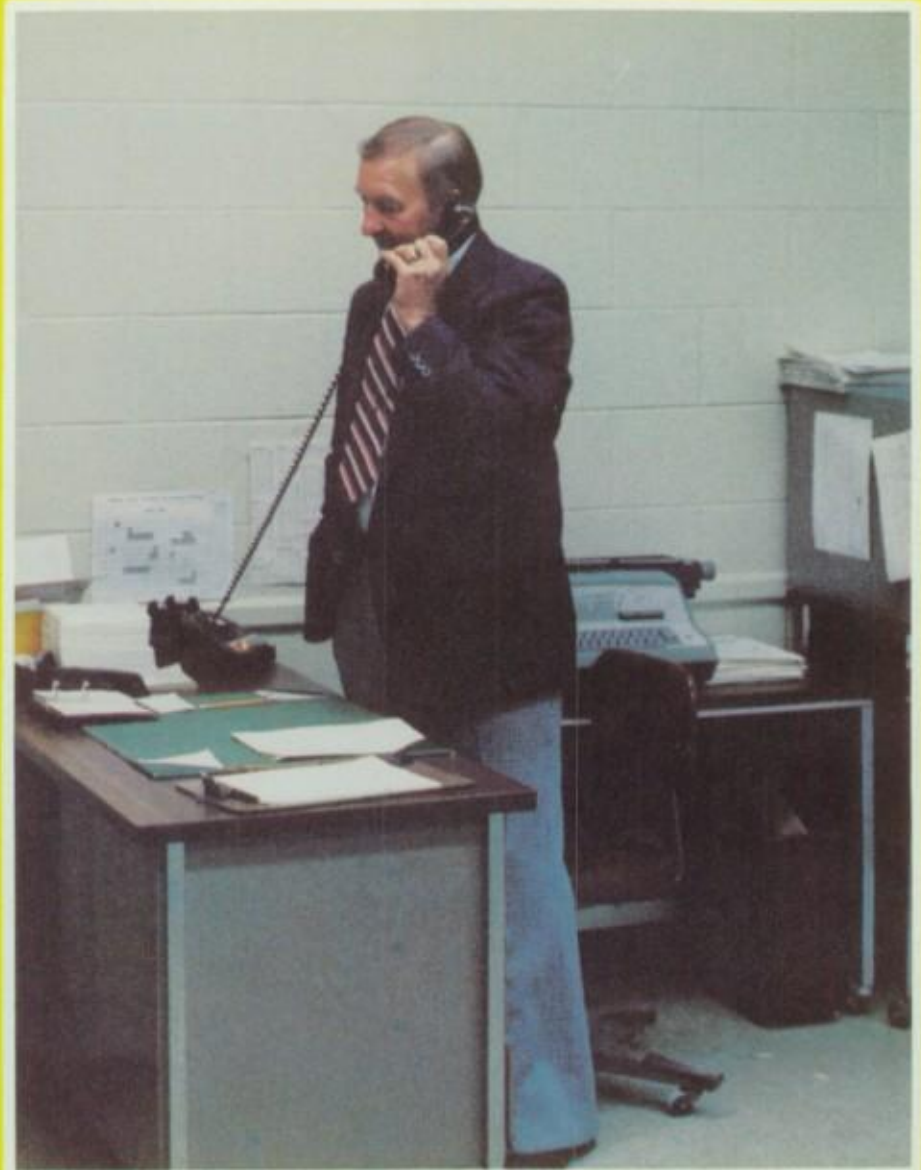

We, the graduating class of 1980, would like to dedicate our yearbook to Mr. Edwin F. Bacon. This man is honored and respected by each and everyone of us at C.C.V.T.S., for his years of dedication and service to our school, students, faculty, and administration.

We are also very proud to have had Mr. Bacon as our assistant principal, and to be able to dedicate our yearbook to him.

Mr. Bacon, who has now retired, will be remembered by all who came in contact with him for different reasons. We know that he will be greatly missed by us and we hope that he will enjoy many years of retirement.

Come into my office said the spider to the fly.

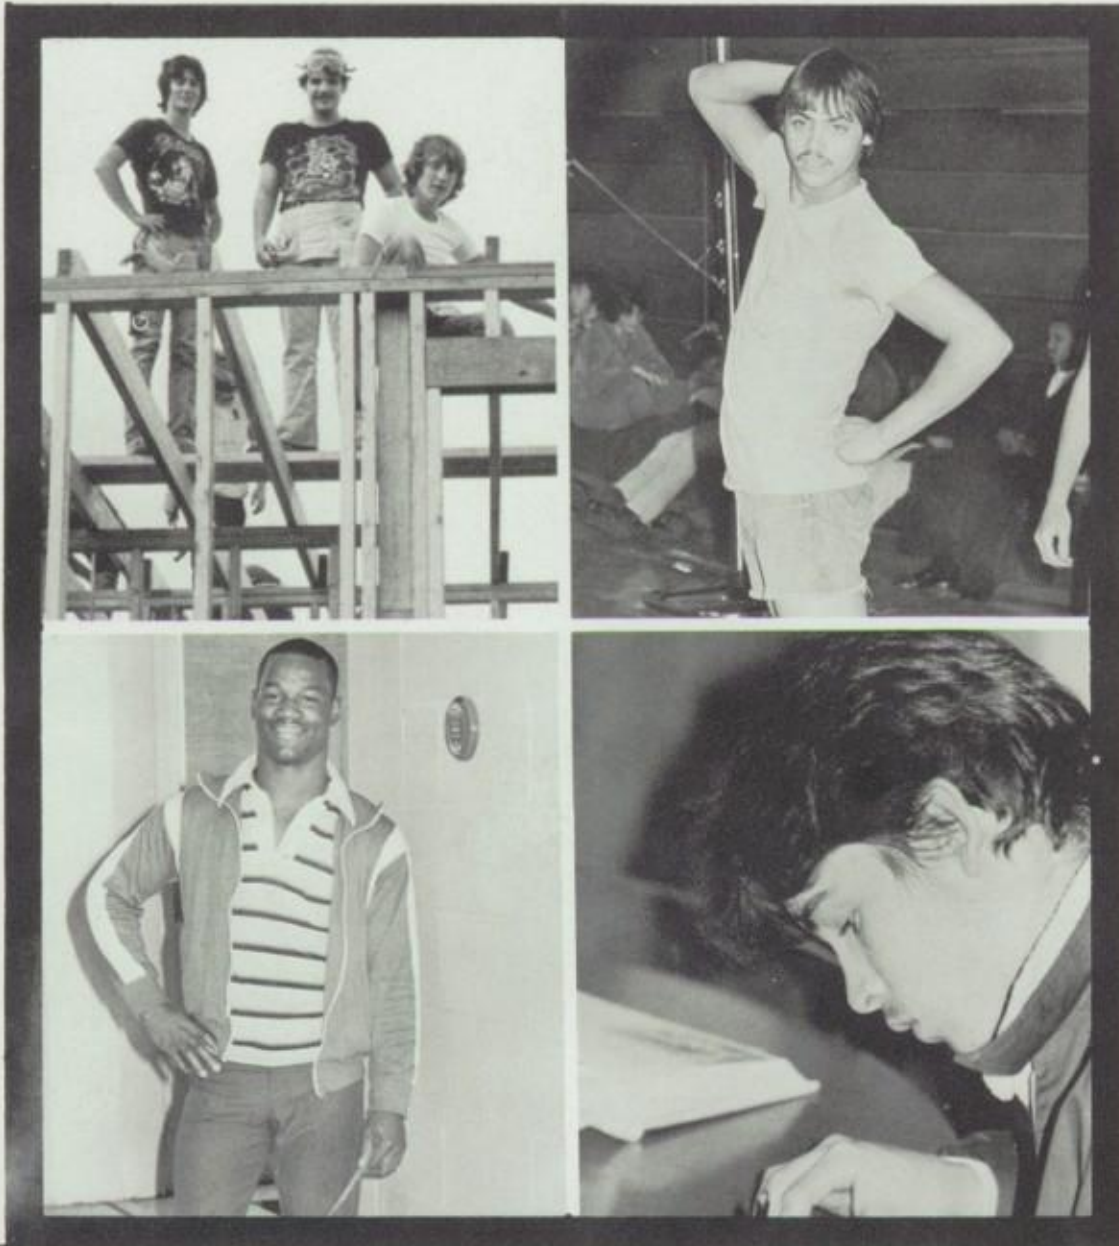

Have him report to my office immediately.

What's next?

Senior Class Officers

Linda Fisher, Mr. Sollenberger, Joanne Senior, Chuck Schafer, Ms. Midili, Nancy Savio

Congratulations! You have changed. From your early years of immaturity and irresponsibility, you have changed into an enjoyable and cooperative class of young adults who have made class activities successful and rewarding for your advisors. Continue to change and grow after you graduate.

Change and growth are necessary-nothing stands still. Everything either moves forward or falls backward. Man has progressed through the ages only because he has had the intelligence to meet change with change. Individuals, too, must heed the lessons of mankind's history. You can master change by continuing to develop and train for the opportunities which new conditions will present tomorrow. The alternatives to growth and change are individual obsolescence and ignorance: the person who graduates today and stops learning tomorrow is uneducated the day after.

The Campus Courier, school newspaper, offers C.C.V.T.S. the opportunity to learn and practice the art of journalistic writing. Being a campus courier staff member requires a real sense of dedication to informing and entertaining one's fellow classmates. Student staff members may operate at any one or at various levels: reporters, photographers, artists, critics, entertainment writers, or editors. Whatever the level of participation, students learn all about small scale newspaper operation. They learn and at the same time develop a real sense of responsibility and leadership. The Campus Courier is by far one of the most worthwhile activities.

One of the more recently organized activities on the campus is the school chorus. As a spin-off of the Christmas Chorus, this group performed on two occasions during the past year. They have developed a delightful sound and an enthusiastic approach to music. Chorus director L. Moss and accompanying pianist M. Backer predict an even greater level of performance in the future

Cheerleading

It was an excellent year with the returning seniors. All of the girls had a successful and challenging year. We hope that our girls have provided enthusiasm for our fans during this past year.

Carol Guinan, Mr. Procida, Eric deHaan, Shawn Keeny

The Ecology Club is a group organized to help familiarize students with our environment. This is done by going on various field trips to places such as Brigantine Wildlife Reserve and Princeton Plasma Physics Laboratory. Also projects such as collecting objects for recycling are completed through the course of the year to help improve our environment. Our president this year is Shawn Keeny and vice-president is Eric de Haan.

The Future Farmers of America is national organization and is an important part of the Horticulture curriculum. The FFA is not a club, but is an integral part of the shop program. The FFA helps prepare students for careers in agriculture by developing leadership, cooperation, & citizenship. Through participation in FFA activities such as: state judging contests, conducting fund raisers, working with the forestry department, preparing exhibits at the ecology fair, committee service projects, and attending the state convention at Rutgers University, the student learns how to speak in public, conduct and take part in meetings, handle financial matters, solve their own problems & assume civic responsibility.

Learning to do; Doing to learn; Earning to live; Living to Serve. That's FFA!

The Jerseymen Club is a statewide program sponsored by the New Jersey Historical Society for the purpose of allowing its members to develop a deeper appreciation for their state heritage. The club provides its members with a first hand look at the places that are so deeply etched into the history of our home state. The members gain their appreciation while spending time with their friends and teachers. The practice of the five R's (reading, researching, rendering, restoring, and reproducing) is the key to the success of the club.

For well over half a century the National Honor Society has worked to bring the achievements of outstanding high school students to the attention of their classmates, their parents and their communities. Chapters exist in more than 20,000 secondary schools in our nation, and all strive to give practical meaning to the Society's dedication to scholarship, service, leadership and character.

The Gloucester Township Chapter of the National Honor Society was chartered in 1973 and has a membership of fifteen members in this, our seventh year of operation. The activities of the chapter include an annual stationary products sale as a fundraiser, a "needy family" food drive to provide a service project for Thanksgiving and Christmas, the annual induction ceremony in May, and a culturally-broadening outing for the members toward the end of the school year.

The recruitment student speakers, on a voluntary basis, accompany the Recruitment Coordinator to the respective schools from which they graduated. They give a brief, yet effective verbal presentation concerning CCVTS. These students explain to their peers, in their own words, the activities of a typical school day at CCVTS and answer questions on a one-to-one basis.

Recruitment speakers in addition to receiving actual public speaking experience, also receive a certificate of appreciation at our awards assembly.

The idea of a student council is a very old one and hopefully very important to the people that spend their time in a high school.

The key to any successful student council, or government is participation. Without the inputs of many people, or their sacrifice of time, a good student council, or government is impossible.

We the 1979-1980 student council feel that our potential to be a successful student government is unlimited. We also feel, however, that more participation, ideas, and people's time is needed to make us better. Many of these things seem to be absent from our student government. We hope to change that this year with your help and participation.

The Vocational Industrial Clubs of America is a national organization of individuals involved in co-educational secondary and post-secondary vocational industrial education. This includes students in trade, industrial, technical and health education courses that are vocationally and occupationally oriented. VICA is the only national organization whose purpose is to serve vocational industrial youth.

PURPOSES:

- * To unite in a common bond all students enrolled in trade, industrial, technical, and health education.
- * To develop leadership abilities through participation in vocational, educational, civic, recreational and social activities.
- * To foster a deep respect for the DIGNITY OF WORK.
- * To assist students in establishing realistic vocational goals.
- * To help students attain a purposeful life
- * To create enthusiasm for learning.
- * To promote high standards in trade ethics, workmanship, scholarship and safety.
- * To develop the ability of students to plan together, organize and carry out worthy activities and projects through use of the democratic process.
- * To foster a wholesome understanding of the functions of labor and management organizations and a recognition of their mutual interdependence.
- * To create among students, faculty members, patrons of the school and persons in business and labor a sincere interest in and esteem for trade, industrial, technical, and health education.
- * To develop patriotism through a knowledge of our nation's heritage and the practice of DEMOCRACY.

Yearbook Staff

The yearbook staff has worked since June, 1979, to bring you the 1980 Golden Warrior. This book is composed of summer meetings, lunch periods, afternoons, long evenings, and late arriving pictures. We hope that our efforts have not been in vain, and that you will always treasure your yearbook. We have tried our best to represent all aspects of our school life. Use this book to remember your senior year, and to recall memories that will fade during the years to come.

Donald C. Springle

Superintendent

To the class of 1980:

Congratulations to each of you.

You have reached an important milestone in your life. You are about to commence your life as an adult.

May you never be satisfied with anything but the best . . . for you, your families and your fellow man.

To achieve the best is not easy.

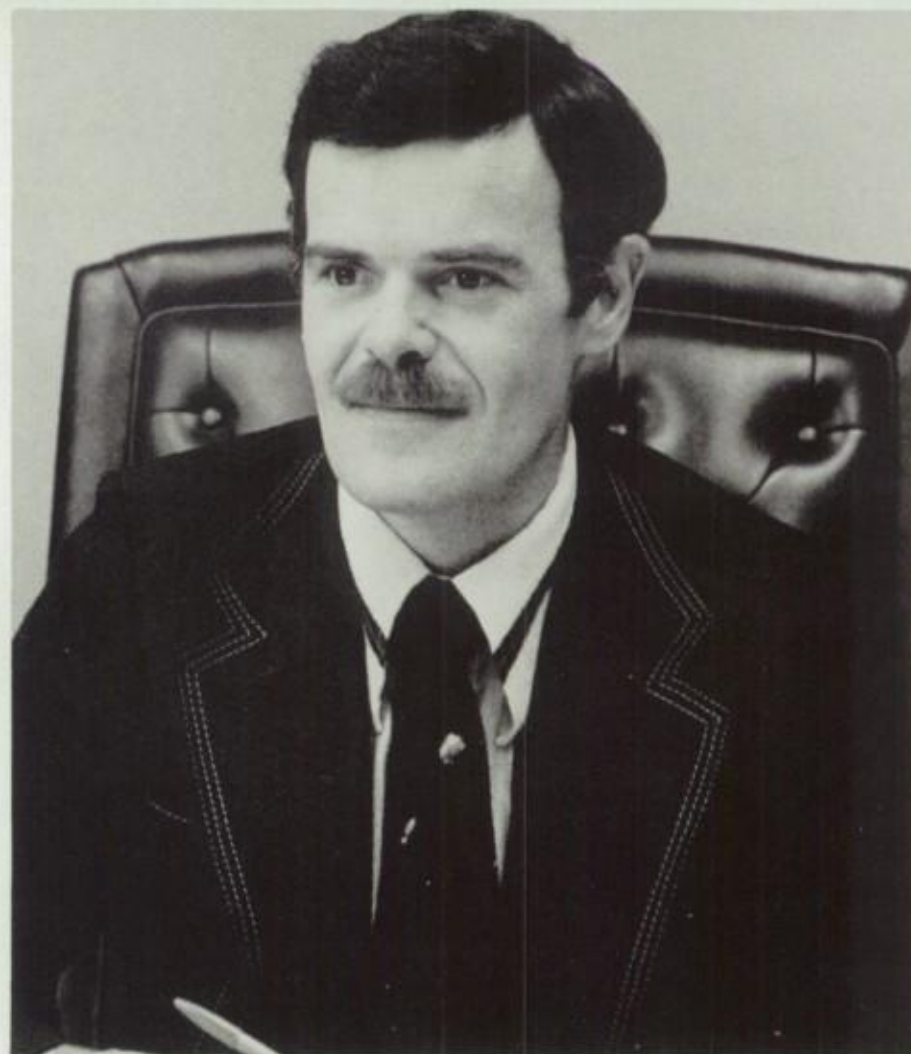

Hard work and sacrifice lie ahead. If you can make the world a better place in which to live, then your life has been worthwhile.

The efforts of your teachers and family have been worthwhile. We have tried to give you skills and knowledge with which to work. Put them to good use for all.

May peace and happiness be with you always.

Assistant Superintendent

Upon graduation you join many distinguished alumni of Camden County Vocational. With pride and anticipation, we send you into the world of work. During your stay with us, we have given each of you the opportunity to learn many and varied skills. Hopefully, these skills will prove essential to you in your career aspirations. Many choices will open to you. As you make these choices, recall some of the excellent lessons you learned. Wisely use your truth and knowledge.

The Class of 1980 is the tenth graduating class in the history of this school. I hope your class will enjoy the same success as previous graduating classes. You have worked diligently to learn the skills needed to prepare yourselves for employment in the world of work. I wish each of you success and happiness in your careers and the years ahead.

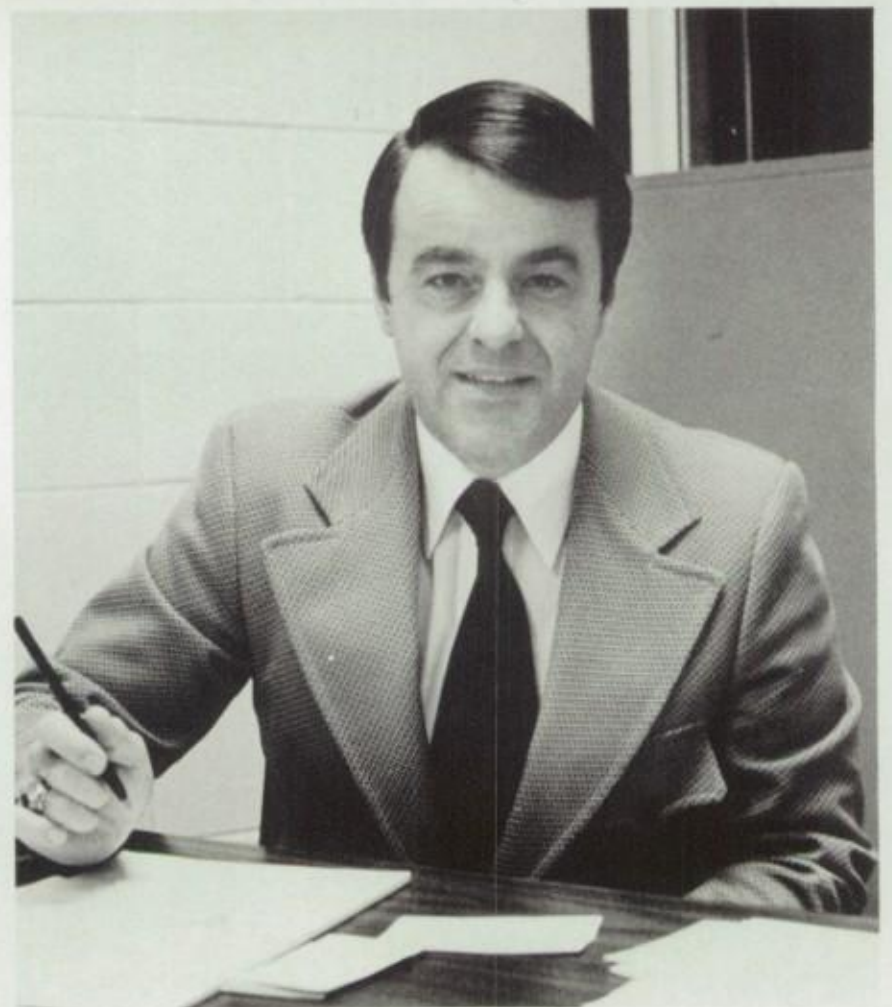

Frank D. Miller

Assistant Principal

To the graduating class of 1980, I extend sincere congratulations. The diligent pursuit of your objectives and the hard work that goes with it has put you on the threshold of your working career and possibly your life's work. Your selection of Vocational Education for your High School Education has given you a decided advantage over other students in your age group, you are prepared with a trade and saleable skill, ready for employment and a pay check. The average high school student, at this point, would have to take additional courses after graduation to be eligible for employment. Your choice has been a wise one. You have done well. I wish you continued success.

Special Needs

Hail Warriors! Farewell and good fortune. How often through history these words have been stated to the infamous armies of conquest as in the Roman Empire, and to the peace defenders of the current era. Those left behind offer declarations of pride, endearment and concern for they knew the battles would be many and difficult. But they were reassured knowing that the forces had been well trained and disciplined to deal with the task. Victory will always be the reward for those best prepared. You the Class of 1980 will go forth and battle the many elements of adult life. But for you victory should be swift because you have been prepared well through your years of training at C.C.V.T.S. You are alert and knowledgeable in occupational practices, have developed strength of character, and have acquired purpose in life. Those of us who remain draw pride from your potential for success and security in knowing you leave us ready to meet all challenges. Good Luck to you all.

John E. Troxell

Don E. Schrieber

Assistant Principal

As members of the first graduating class of the nineteen eighties, you will be able to help set the pace for the decade ahead. There are many problems that need to be solved. Many of you will face that challenge and your efforts will help in directing our nation's future.

Your education at Camden County Vocational will help you to fulfill these challenges. You have learned to work successfully in your trade area and shown that you can perform a task successfully. You have learned to relate to others and learned to work cooperatively. You have gained valuable experiences, both vocationally and socially. Use these experiences wisely and to your best benefit, and in doing so you can meet the challenges of the '80's.

Congratulations, best wishes for success and prosperity in your future.
